INTERNSHIP

FRONT-END DEVELOPER

Microsoft | Remote

JUN 2020 - SEP 2021

Developed and optimized responsive user interfaces using React, JavaScript, and TypeScript. Collaborated with designers and backend teams to enhance UI/UX and ensure seamless integration. Improved application performance and accessibility, following best coding practices. Conducted code reviews, debugged issues, and

ABOUT ME

Passionate Full Stack Developer and AI/Machine Learning Engineer with a strong foundation in building scalable applications and developing intelligent solutions. Skilled in designing and optimizing web applications, implementing machine learning models, and solving complex problems creatively. Passionate about leveraging technology to drive innovation, enhance user experiences, and create impactful solutions. Eager to contribute technical expertise, collaborate with dynamic teams, and push the boundaries of AI and software development.

SKILLS

HTML, CSS

Javascript

React

Python

PHP

Version Control System (Git)

Big Data & Cloud (AWS, GCP, Azure)

TensorFlow/PyTorch

WORK EXPERIENCE

JAN 2024

DEC 2024

MACHINE LEARNING AND AI ENGINEER

Northumbria Project Team | London

- Developed robust machine learning models using TensorFlow and scikit-learn for customer segmentation, leveraging large datasets processed with Pandas and NumPy to increase marketing efficiency by 25%.
- Designed and deployed AI-powered recommendation engines using collaborative filtering and neural networks,

implemented feature updates. Worked in an Agile environment, delivering high-quality solutions on time.

EDUCATION

BACHELOR OF SCIENCE IN
COMPUTER SCIENCE

Northumbria University |
London
2024

- *Specialized in Machine Learning and Artificial Intelligence.*
- *Graduated with First Class Honors.*

HIGHER NATIONAL
DIPLOMA

Info Myanmar University |
Myanmar
2023

- *Graduated with Focus on Web Development and Technologies.*
- *Contributed to Projects and Activities in the Computer Club.*

implemented with PyTorch and deployed on AWS SageMaker for scalability.

- Implemented real-time computer vision models for object detection in surveillance systems, applying techniques in OpenCV and optimized with model optimization frameworks, improving detection accuracy by 30%.

JUN 2023
DEC 2023

FULL STACK DEVELOPER

Myanmar Yulin Company Limited (Chinese) | Myanmar

- Design and develop comprehensive web applications that meet the needs of the business.
- My role involves collaborating with cross-functional teams to create dynamic user interfaces and implement robust backend solutions using technologies such as HTML, CSS, JavaScript and PHP.

JAN 2022
JAN 2023

GRAPHIC DESIGNER AND PROJECT MANAGER

Million Chances Youth Organization | Myanmar

- To create adverts, branding, signage and other media products.
